In the Box

1. 4K Time Lapse Camera - TLC5000

- 1.1. Camera
- 1.2. Lens hood
- 1.3. USB-C cable
- 1.4. MicroSD card with adapter

2. Construction Power Housing - ATH5000

- 2.1. Camera protective housing
- 2.2. Extra battery slot
- 2.3. Camera mounting adapter (pre-install in the camera protective housing)

In the Box

3. Camera Clamp Pro - ACC5000

- 3.1. Camera clamp
- 3.2. Extension poles
- 3.3. Magic arm
- 3.4. Quick release adapter
- 3.5. Screws

4. Battery Pack - MRB1000

- 4.1. Rechargeable battery pack x2

Device Parts

1. Camera

FRONT

- 1.1. Spirit level
- 1.2. Lens
- 1.3. Start/stop button with LED indicator
- 1.4. Time interval button
- 1.5. Tripod mount (size: 1/4")

1.6. SIDE

- 1.7. Power switch
- 1.8. MicroSD card slot
- 1.9. USB-C socket
 - Charging battery (need to turn on camera power)
 - Power supply

BACK

- 1.10. Battery cover
- 1.11. Cover lock
Battery slot

Device Parts

2. Construction Power Housing

FRONT SIDE

FRONT SIDE

- 2.1. Extra battery slot x3
- 2.2. Battery lock
- 2.3. Power-in port (for solar power) (USB-C)
- 2.4. Data transfer port
- 2.5. Door & latch

BACK SIDE

BACK SIDE

- 2.6. Camera mount adapter
- 2.7. External power connector (USB-C)
- 2.8. Door & latch
- 2.9. Tripod mount (size: 1/4")

Device Parts

3. Camera Clamp Pro

Magic Arm

- 3.1. Quick release adapter (for camera)
- 3.2. Flex arm knob
- 3.3. Clamp mount

Camera Clamp

- 4.1. Clamp head
- 4.2. Extension pole hole knob
- 4.3. Clamp head knob
- 4.4. Mounting hole (1/4") (x3)
- 4.5. Handle

LED Indicators

1. Camera

1.1 Power/recording status

- GREEN

Solid: Power on

Blinking: Recording

- RED

Solid: No SD card,

Blinking: Low battery, low MicroSD card storage

1.2 Time interval

- GREEN

Solid: Indicated current time interval setting

1.3 Connection status

- BLUE

Solid: Camera connected to camera server

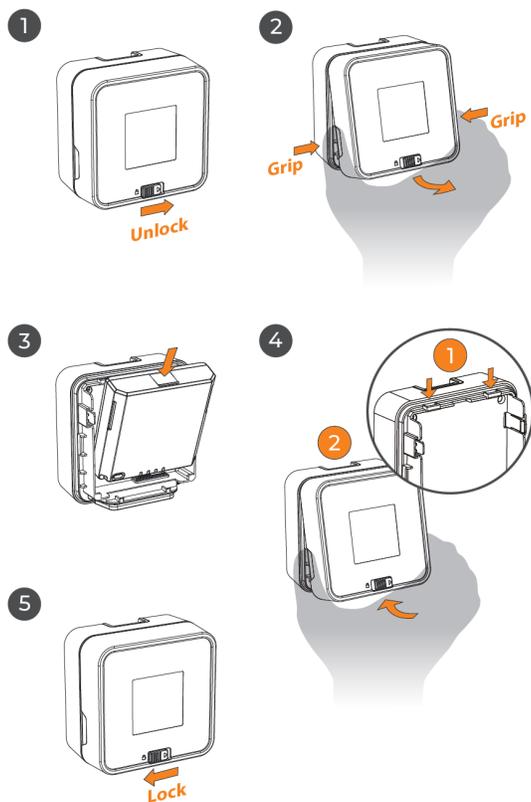

Blinking: Wi-Fi connecting

Initial Setup

Charge Before Use

Camera | Installing Battery Pack

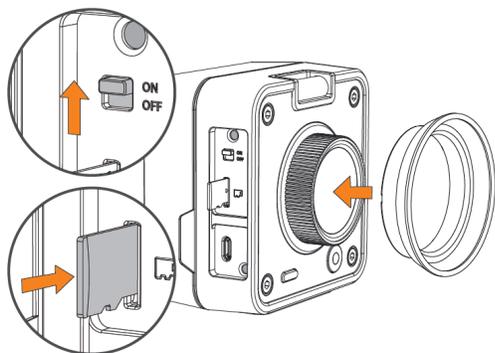

1. Unlock the battery cover.
2. Remove the battery cover.
3. Install battery pack.
4. Close the battery cover.
5. Lock the battery cover.

Camera | MicroSD Card & Lens Hood

6

Open the microSD card cover

6. Insert lens hood.
7. Insert microSD card.
8. Turn on camera.

Housing | Charging Battery Pack

The BCC5000 waterproof power box has an additional battery expansion slot, which can be installed with up to 3 Brinno rechargeable battery packs (MRB1000), which will charge the TLC5000 camera.

1. If the waterproof power box has an external solar panel (ASP1000), it will charge the battery pack in the expansion slot.
2. When using an external power source, you must install a battery pack to charge the camera.

Housing | Installing Battery Pack

1

Open Battery slot cover

1. Insert the battery pack included in the package*.
2. Green LED lights on meaning the battery pack is installed correctly.
3. Lock the battery pack with battery lock.

2

Note:

1. Fully charged before use.
2. Supports up to 3 battery packs in total.

3

Housing | Installing Camera

Open CAMERA HOUSING cover

4. Remove the camera mounting adapter.
5. Secure the camera and the adapter with the screw.
6. Open the USB-C cover on the camera, and plug the external power connector into the camera.

Then, insert the adapter with the camera attached back into the camera housing.

Housing | Locking the Door

7

7. Secure the door of the housing.
8. Lock the latches, and a "click" sound means correctly installed.

8

LED Indicators

2. Construction Power Housing (Battery Slot)

When the battery pack is inserted into the housing, the LED flashes to indicate the battery is connected.

Refer to the following table for LED sign :

| LED Color | Status | Meaning | Discharging | Charging |
|-----------|----------|-----------------------------|------------------|--------------|
| ● Green | Solid | Battery available (>15%) | Not in use. | Not charging |
| | Blinking | | Powering camera. | Not charging |
| ● Orange | Solid | | Not in use | Charging |
| | Blinking | | Powering camera. | Charging |
| ● Red | Solid | Battery low (≤15%) | Not in use | Charging |
| | Blinking | | Barely powering. | Charging |
| No light | — | No battery or battery empty | Not in use | Not charging |

LED Indicators

Charging Dock Power Management System Overview

1. Battery Discharge Management (1-3 batteries):

- Switches to the battery with the highest charge after one week of use or when battery level drops to 15–20%.
- If all batteries are low, cycles through them evenly while waiting for recharge.

2. Battery Charging Management (1-3 batteries):

- Charges each battery for about one hour before switching to the one with the lowest charge to maximize efficiency.
- Switches within 3 minutes after a battery reaches over 90% charge.
- Batteries above 5% charge join the charging cycle to extend usage during low sunlight periods.

3. Additional Features:

- Supports charging via 5V solar panels, USB Type-C, USB QC 5V, and USB PD 5V.
- For initial setup, charge MRB1000 batteries below 15% for 15–30 minutes before use.
- When not in use, fully charge all batteries before storage.

Clamp | Install Release Adapter

1

2

1. Remove the Quick Release adapter from the Magic Arm.
2. Install the Quick Release adapter to the Construction Power Housing with the big screw and two other small screws.

Clamp | Assemble Magic Arm

3. Install Magic Arm on the Camera Clamp

Clamp | Assemble

1. Attach Camera Clamp to a desired location, tightening the handle.
2. Adjust Magic Arm to a desired position.

Clamp | Assemble Housing to Clamp

1. Loosen the locking switch.
2. Slide the Quick Release adapter at a tilted angle to secure it.
3. Lock the switch.

Clamp | Find Your Desired Position

1. Adjust the whole set to find your desired position

Clamp | Install Extension Pole

Clamp | Install Extension Pole

Clamp | Install Extension Pole

Operating Methods

3 Operating Methods

The camera (TLC5000) can be operated through the following methods:

1. Bluetooth operation (initial setup, local control)

- Initial camera setup.
- Short-term project.
- Local control.
- Laptop or desktop.

[Camera Control Center \(CLICK HERE\)](#)

2. Wi-Fi operation (remote control)

- Completed Wi-Fi setting thru Bluetooth operation.
- Long-term project.
- Remote control.
- Phone, tablet, laptop or desktop.

[Multi-Camera System \(CLICK HERE\)](#)

3. On-Camera operation

- Select desired time interval.
- Start/stop recording.

Bluetooth Operation

Bluetooth Operation

Turn on the camera.

Using Google Chrome to access the following web app on your laptop or desktop*.

 [Camera Control Center\(CLICK HERE\)](#)

Note: Make sure Bluetooth function on your laptop or desktop is enabled.

Requirements:

- Laptop or desktop with Bluetooth function
- Operating system: Windows or macOS
- Web browser: Google Chrome
- Connecting range: Within 10 meters.

Bluetooth | Home Page

1. Camera Connect

Connect camera through Bluetooth (BLE) for initial setup.

2. Multi-Camera System

Once the camera is connected to camera server through Wi-Fi, you can manage your cameras remotely.

3. Log info

Display all camera log info for internal analytics.

4. Notifications

Display all notifications.

5. Account Setting

Login/sign up, push notifications, language setting, help center.

Bluetooth | Camera Connect

| | |
|---|--|
|  | <ol style="list-style-type: none">1. Click Camera Connect. |
|  | <ol style="list-style-type: none">2. Find the camera with the unique Bluetooth ID. *Every camera has a unique Bluetooth ID.3. Click Pair. |

Bluetooth | Camera Status

The screenshot shows the Brinno camera status interface. It features a dark background with orange text and buttons. At the top left is the Brinno logo. The main content area displays the camera ID (0026-0051-5002-3432-3052-2034), a 'Not Recording' status, and battery health (75%) and SD card status (0%). Below this are 'Camera Settings' and 'Register Camera' buttons. A 'Log info' section shows a list of system logs. At the bottom is a 'Disconnect from the Device' button. Five numbered callouts (1-5) point to these specific elements.

1. Camera ID
2. Camera recording status
3. Camera battery & SD card capacity
4. Camera settings
5. Disconnect camera

Once connected via Bluetooth, the browser will display the camera status.

1. Camera ID
2. Camera recording status
3. Camera battery & SD card capacity
4. Camera settings
5. Disconnect camera

Bluetooth | Camera Settings

Click **Camera Settings**, go to setting page:

1. Take a Photo

The camera will send one photo through Bluetooth.

2. Start Recording

Start/stop recording with Camera Control Center.

3. Schedule Setting

Set daily & weekly capture schedule.

4. Time Interval

Set time interval.

5. Camera Wi-Fi

Setup Wi-Fi connection to the camera for remote control.

Bluetooth | Take a Photo (adjust camera view angle)

1. Click *Take a Photo*.

Camera instantly captures the present frame and sends to Camera Control Center.

2. Check camera view angle.

Adjust camera view angle, and click *Reload* to receive updated frame.

Note:

Take a Photo is unavailable when the camera is recording

Bluetooth | Schedule Setting (daily & weekly recording schedule)

1. Click *Schedule*.

2. Enable/disable *Schedule*.

3. Select *Start Recording Time*

4. Decide *Start Recording Time*

5. *Schedule Days*

Select desired recording days of week.

6. *File Split*

- **Continuous:** Camera will automatically combine several days of recording into a single file.

- **Daily:** Every daily recording produces a single **daily video file**.

*File exceeding 500mb will be split into multiple files.

7. Click *Save* to save settings

Bluetooth | Time Interval

| | |
|---|---|
|  | <p>1. Click <i>Time Interval</i> Setting.</p> |
|  | <p>2. Select desired time interval, or customize time interval according to your need.</p> <p>3. Click <i>Save</i> to save settings</p> |

Bluetooth | How to Start a Time Lapse Recording

1. Take a photo to confirm camera view angle.
2. Set daily & weekly recording schedule.
3. Set desired time interval.
- 4 Start your time lapse recording.

Note:

To access the recorded video file, visit the [Multi-Camera System](#) for download.

Bluetooth | How to Check Camera Status During Recording

| | |
|---|--|
|  <p>The first screenshot shows the 'Camera Connect' screen. It features an orange camera icon with a plus sign and a hand pointing to a '1' in a circle. Below the icon, the text reads 'Camera Connect' and 'Use Bluetooth to configure the camera and connect it to WiFi'. The second screenshot shows a Bluetooth pairing screen. At the top, it says 'new-ble-sketch.web.app wants to pair'. Below that, there is a list of devices with the selected device 'TLC5K-duT9KfUob7E' highlighted. A hand points to this device with a '2' in a circle. At the bottom right, there is a blue 'Pair' button with a hand pointing to it and a '3' in a circle.</p> | <p>Go to Camera Control Center(CLICK HERE)</p> <ol style="list-style-type: none">1. Click <i>Camera Connect</i>.2. Find the camera with the unique Bluetooth ID.3. Click <i>Pair</i> button. |
|  <p>The screenshot shows the 'Camera Status' page. At the top, it displays 'Camera ID' 0026-0051-5002-3432-3052-2034. Below that is a 'Now Recording' toggle switch with a '1' in a circle pointing to it. The page shows '74% Battery Health' and '0% SD Card Status' with a '2' in a circle pointing to the 'SD Card Status'. There are two orange buttons: 'Camera Settings' and 'Register Camera'. At the bottom, it says 'This camera is not registered to any account'.</p> | <p>At Camera Status page</p> <ol style="list-style-type: none">1. Indicate the camera is recording.2. Check battery & SD card capacity |

Bluetooth | Add Camera to Your Account

Adding a camera to your account means you can remote control all your cameras, it will require two steps:

Step 1. Sign up/login to your account.

Step 2. Setup Wi-Fi connection to the camera.

Note:

At this process, your laptop/desktop & camera need to connect to a stable Wi-Fi.

After connecting the camera through Bluetooth.

1. Click *Register Camera*.

2. Sign up/login your account.

Bluetooth | Sign up/login Your Account

1. Login: If you already have an account.
2. Sign up: Create a new account.

3. After completed account login/sign up, return to register camera page.

Bluetooth | Set Camera Wi-Fi

| | |
|---|---|
|  | <p>At Register Camera Page</p> <ol style="list-style-type: none">1. Click <i>Setup Wi-Fi</i>. |
|  | <ol style="list-style-type: none">2. Enter your Wi-Fi name (SSID) & password. Note: Please ensure your Wi-Fi supports 2.4 GHz or Dual (2.4/ 5 GHz) frequency bands.3. Select <i>Remember my account</i>.4. Click <i>Save</i> to save settings. |
|  | <p>The Blue LED blinks while connecting to Wi-Fi, and turns solid when the connection completes.</p> |

Bluetooth | Register Camera

| | |
|--|---|
|  | <p>While camera is connected to Wi-Fi</p> <ol style="list-style-type: none">1. Click <i>Register</i>. |
|  | <ol style="list-style-type: none">2. Camera Registered. |

Bluetooth | Register Completed

Once the camera is registered, you can use the following functions:

1. Multi-Camera System

Remote control all your registered cameras through Brinno cloud platform.

2. Unregister Camera

Remove the registered camera from your account.

Wi-Fi Operation

Wi-Fi Operation

| | |
|--|---|
|  | <p>Mount construction camera at desired position.</p> |
|  | <p>Using any browser to access the following web app on your mobile devices, laptop or desktop.</p> <p> Multi-Camera System (CLICK HERE)</p> <p>Note:</p> <p>Make sure all devices are connected to Wi-Fi or LTE.</p> |
