Brinno **TLC300**

The **Next Generation** Time Lapse Camera

Simple, yet professional

The BCC300 bundle is paired with the TLC300 camera, a powerful and customizable device that offers a simplified user interface. It allows for effortless setup and monitoring even in bright environments thanks to the crystal IPS LCD panel. The TLC300 camera is the ultimate companion for time lapse photography in construction sites and any other industries.

Product Page

Support Page

Welcome to the **Next Generation** of time lapse photography

After the success of our much beloved TLC200 and TLC200 Pro time lapse camera, we aim to create a next-generation camera that exceeds expectations and provide customers with a mind blowing experience. With the retirement of our little workhorse, the TLC300 is now ready to be your new equipment for documenting everything with more advanced features that will better fit your time lapse needs.

A better choice!

TLC300

TLC200Pro

Easy Time Lapse

Effortlessly create professional quality time lapses. Images are auto-processed into a ready-to-share video. Only record during working hours and eliminate the need for post-editing by setting up a filming schedule.

HDR

HDR & Full HD

Let ALL your projects shine in brilliant, full HD. Even in environments with unpredictable and unstable light, Brinno's hands-off time lapse technology automatically balances light and colors so you don't have to.

Long Lasting Battery

Perfect for long-term projects, Brinno's revolutionary power saving technology keeps your camera charged for longer than any action cam on the market.

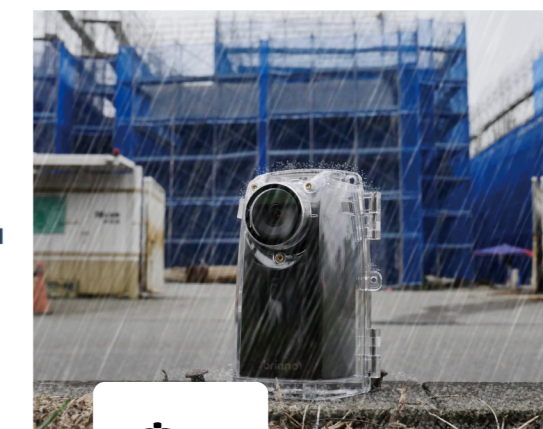

Sunlight Readable Display

Bright environments are no match for Brinno's new IPS LCD screen. Check liveview and adjust settings from a crystal-clear display even under direct sunlight.

Multilingual User Interface

Change your camera operating language and enjoy our new fully optimized UI in your desired language. UI available in 8 languages: English, Deutsch, Italiano, Español, Français, 日本語, 繁體中文, 简体中文

Mounting Accessories

Set up your camera in a couple of minutes with our easy-to-use mounting accessory, bungee cords, and IPX4 waterproof housing.
